

DATES: Mid-August - October **LOCATION:** [Online](#)

Follow Austin Organic Gardeners and we plan, plant, tend, and harvest our fall gardens at Zilker Botanical Gardens. Austin Organic Gardeners are celebrating 75 years as the longest running *organic* garden club in the US. We thought the best way to continue our resiliency was to share weekly lessons from our demonstration beds online for FREE!

AOG Members Madelynn Arnold and Angel Schatz will be sharing videos, photos, live streams, and downloads via social media to help you get started with your fall garden. See the schedule of lessons below and follow this event for updates. We have partnered with Sustainable Food Center to provide their Student Guide ebook for you to follow along! These lessons will be great for beginners and experienced gardeners that want to dig into the details of Austin's botanical backyard and learn from the different styles of organic garden beds we demonstrate at Zilker Botanical Gardens.

LESSON 1: Sun, Soil, Water, and Air

LESSON 2: Preparing Your Fall Garden Beds

LESSON 3: Planting

LESSON 4: Compost

LESSON 5: Disease & Pest Management

This event is FREE and we are always looking for new members to help us support our mission. Visit [AustinOrganicGardeners.org](#) to become a member today. Memberships are only \$10 a year.

Follow us online for event links and more!
