Zilker Botanical Garden
Tōrō Lantern Scavenger Hunt

Name _____

Date _____

In Japan, a tōrō is a traditional lantern made of stone, wood, or metal. These lanterns were adopted from China into Japanese culture where they could be found in Buddhist temples. Over time, they became more commonly found in gardens.

There are 10 of these lanterns throughout our Taniguchi Japanese Garden, and one near the parking lot. Can you find all of them?

☐ Lantern 1

☐ Lantern 2
